EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kurt Ehresman on 3/17/06.

The application has been amended as follows:

The title was amended to read as follows:

Method of ~~cooling for~~ **Making Porous** Ceramic Composites

The claims were amended as follows:

3. (Currently Amended). The method of claim 2, wherein the fugitive thread is comprised of a material selected from the group consisting of nylon, polyester, rayon, cotton, **and** carbon fiber ~~and combinations thereof~~.

25. (Currently Amended). A method of manufacturing a structural fiber reinforced porous ceramic matrix composite member having a predetermined pattern of cooling holes and channels therein,

the cooling holes and channels formed by a process comprising the steps of:
providing at least one ply of ceramic fiber material;

Art Unit: 1731

stitching at least two fugitive threads through the at least one ply of ceramic fiber material in at least one preselected pattern, the at least two fugitive threads comprising a needle thread and a bobbin thread;
infiltrating the ceramic fiber material with a ceramic slurry;
consolidating the infiltrated ceramic fiber material; and
sintering the laminated and infiltrated ceramic fiber material at a temperature sufficient to decompose the at least ~~[[to]]~~ two fugitive threads but not sufficient to damage the ceramic fiber material, leaving at least two channels in the ceramic matrix composite component member in place of the at least two fugitive threads.

27. (Currently Amended). The method of claim 26, wherein the fugitive threads are comprised of a material selected from the group consisting of nylon, polyester, rayon, cotton, and carbon fiber ~~and combinations thereof~~.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the primary reason for allowance is that the cited prior art fails to disclose or reasonably suggest of stitching at least one fugitive thread through at least one ply of ceramic fiber material and sintering to sufficiently decompose at least one fugitive thread as recited in claims 1 and 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1731

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos Lopez whose telephone number is 571.272.1193. The examiner can normally be reached on Mon.-Fri. 8am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571.272.1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
